

Nosy Saba Private Island & Spa

MADAGASCAR

Nestled on a secluded, uninhabited paradise island at the edge of a UNESCO marine reserve, Nosy Saba Private Island & Spa is an island ecolodge offering an unforgettable experience, where discovery meets nature and space for rejuvenation is abundant.

Authenticity is at the heart of Nosy Saba's identity. One of the lodge's goals is to preserve the island's natural beauty and cultural heritage, enabling guests to immerse themselves in a genuine and unspoiled experience. The accommodation blends with the surroundings, built with sustainable materials through traditional craftsmanship that reflects the local culture and the island's sense of authentic charm.

Nature and discovery reign supreme on Nosy Saba. Chart your own course and embark on nature walks, kayak or cruise along the two miles of white sandy beaches, go fishing with one of the lodge's skippers or set sail to the surrounding islands on a sunset cruise. Guests will uncover the island's secrets — from secluded coves and viewpoints to endemic wildlife (including majestic sea turtles and the rare blue-eye lemur).

The suites feature spacious living areas and private outdoor spaces where guests can unwind in solitude or share intimate moments with loved ones. With the vast expanse of nature as a backdrop, guests will find a sense of peace and privacy that rejuvenates the soul.

Disconnection from the outside world is effortless. While the island offers modern amenities, guests are encouraged to unplug and savour simple island life.

Wellness is a way of life here to those seeking relaxation and rejuvenation. On top of many sports activities, the spa offers a range of wellness programmes that cater to individual needs. Whether relaxing with ylang-ylang, ravintsara or another Malagasy essential oil massage or spending an exquisite moment in the whirlpool, your wellbeing is the top priority.

The entire island of Nosy Saba can be booked for private events or corporate retreats, seminars and team building sessions. With 27 beachfront suites (42 bedrooms), two restaurants, meeting and banquet facilities, the lodge can comfortably accommodate up to 100 guests.

Need to know
